HOW CAN BIOMÉRIEUX

BRING VALUE TO YOUR BIOPRODUCTION PROCESS?

COST OPTIMIZATION

C-SUITE MANUFACTURING FINANCE

Implement earlier actions based on the results of our diagnostics tests to cut direct and indirect costs ((production scrap, investigation costs...).

SCANRDI® | BACT/ALERT® 3D | BIOFIRE®

LAB PRODUCTIVITY & EFFICIENCY

QUALITY LABORATORY

Maximize human resources and increase flexibility by internalizing additional tests, standardizing training, improving personnel health and safety, and overall easing their turnover.

BACT/ALERT® 3D | BIOFIRE® MYCOPLASMA | ENDONEXT™

RELIABILITY OF RESULTS & PRODUCTION AGILITY

QUALITY LABORATORY

Progress step by step in your process trusting test results and the quality status of your production, resting assured of the absence of any potential contaminant.

SCANRDI® | BACT/ALERT® 3D

PRODUCTIVITY & FINANCIAL INDICATORS

C-SUITE MANUFACTURING FINANCE

Reach or exceed your yearly targets and deliver more manufactured units. Optimize your inventory to reduce the costs dedicated to warehouses for quarantined goods and maximize your cash flow with the sooner release of your products.

CONFIDENCE & COMPLIANCE

QUALITY LABORATORY

Peace of mind for solution adoption to meet regulatory requirements, from validation guides to comprehensive on-site validation support.

SCANRDI® | BACT/ALERT® 3D

PUBLIC HEALTH & PATIENT CARE

C-SUITE QUALITY

Rapid quality results not only provide a green light that your biologic or is free of contamination, they can be critical for advanced and cellular therapies with short production cycles and narrow treatment windows.
